ICST TEST - INVENTORY OF SAFE WORKPLACE BEHAVIOURS

The ICST is a psychometric test that provides a measure of attitudes and behaviours related to workplace safety. This automated tool provides a quick overview of the degree to which a candidate has Characteristics required to deal with potential risk situations in the workplace.

DIMENSIONS ASSESSED IN THE ICST TEST

- ▶ Confidence
- ▶ Perceived control
- ▶ Stress Tolerance
- ▶ Risk management
- ▶ Impulsivity management
- ▶ Responsibility
- ▶ Rule-following
- ▶ Organization
- ▶ Openness to feedback

ADVANTAGES

- ▶ Complete autonomy on Interpreto's user-friendly platform for test administration and report management.
- ▶ Report generated instantly, as soon as the candidate completes the test.
- ▶ Provides an inventory of the candidate's responses, for a more detailed analysis of the candidate's profile.

DEVELOPMENT OF THE TOOL

The ICST was developed by experts and partners of the IRP firm.
